I believe every quilter should know how to appliqué. Anyone who thinks needleturn appliqué is difficult hasn't taken one of my appliqué classes!

My specialty is stress-free needleturn hand appliqué. I put students directly in touch with their needle, thread, and fabric. I show how incredibly easy appliqué is without the use of freezer paper, toothpicks, starch, cardboard, plastic, back-basting, ironing, or interfacing—all things that needlessly complicate what is otherwise a very simple process.

I've been teaching needleturn appliqué and Hawaiian quiltmaking since 1982. I receive rave reviews wherever I teach, including on the internet as an instructor at AcademyofQuilting.com. **After taking a class from me, beginners and experts agree that appliqué is not only possible, but positively addicting!**

Since you work with instructors, you know already that not every quilter or author makes a good teacher. I am a quilter and author, but I'm an even better teacher. I'm also organized and punctual, traits you will appreciate personally as we work together to make your event successful.

Here you will find a brief resume, workshop and presentation descriptions, and most importantly, the actual words of my students—the people that matter. Read what they have to say, then contact me so we can make arrangements for your next event.

Write, call or email. Visit my website at www.quiltchong.com to see more of my quilts, view my calendar, see my full résumé, and get more details about my classes. I look forward to hearing from you soon. Let's give your customers, students, or guild members what they want.

One student's comment:

"Thank you for what was the best class I have ever taken! I came away with a brain stuffed with new techniques, ideas and enthusiasm. You are a superb teacher, unbelievably organized and able to convey information in a manner that is understandable and fun! To be able to connect with all skill and experience levels was a challenge, but you really pulled it off! That was one of the most worthwhile Saturdays I've spent in a long time."

Presentations

CONFESSIONS OF AN APPLIQUÉ ADDICT

It's time for me to confess the embarrassing details of my sordid past. The evidence of addiction is in my quilts, quilts and more quilts. Sit back, laugh, and empathize while I reveal my addiction. By the way, I am not seeking treatment.

HAWAIIAN QUILTING:

Its History, Traditions and Superstitions

I began making Hawaiian quilts in 1978, and immediately became intrigued with the history and folklore surrounding this spectacular quilting art form. With my own quilts, I share what I have learned about the traditions and superstitions that are interwoven with Hawaiian quiltmaking, the mysterious story of how they began, and how they became my obsession.

FIRST MAKE IT FUN!

There is no right or wrong way to make a quilt, as long as you are having fun. And I have different opinions about what makes it fun. In this spirited presentation, while showing my quilts, I tell stories about how much fun I have making quilts and share practical tips that are sure to increase your quiltmaking enjoyment.

FINDING TIME TO MAKE QUILTS

We'll take a humorous look at how to become more efficient with both time and space in order to become a more productive quiltmaker. A wide variety of very practical methods are explored, including: where to store supplies, working with intimidating patterns, and techniques for washing fabrics. I show quilts I've completed and ones that are still in progress – all made during *found time*.

Résumé for a complete résumé visit www.quiltchong.com

I made my very first quilt, a queen-size Hawaiian quilt, in 1980 while living in Hawaii. I began teaching my stress-free needleturn techniques and Hawaiian quiltmaking in 1982 when my husband, daughter and I moved to Seattle, Washington. My degree in education, my experience with all styles of appliqué, and my understanding of what a beginner goes through, have made me one of the premier appliqué teachers in the United States. My quilts have appeared in numerous books and magazines, and I've traveled across the USA and Canada, sharing my stress-free approach to needleturn appliqué with beginners and experienced quilters. I'm on the faculty at AcademyofQuilting.com, where I receive rave reviews for my 2 Fabric Appliqué, Hawaiian, Celtic, Baltimore and Hand Quilting classes.

In 1990, my sister, Janice Baehr, and I formed Pacific Rim Quilt Company to promote our line of original *Hawaiian Quilt* patterns. In 2005 we introduced our bold 2 *Fabric Appliqué Quilts* pattern line, followed in 2011 with our line of *Appliqué Quilt Borders & Tablerunners* patterns. Believing that appliqué and designing are best learned by watching, we produced three instructional videos:

- *Design Your Personal Hawaiian Quilt* (book & DVD set)
- *Hawaiian Quilting with Nancy Lee Chong*
- *2 Fabric Appliqué Quilts with Nancy Lee Chong*

While we sold Pacific Rim Quilt Co. (www.pacificrimquilt.com) in 2015, I continue to work closely with the new owners, travel to teach wherever I'm invited, and design new quilt patterns.

Unsolicited Student Testimonials

"Your knowledge, skills and ability to communicate really benefit all of us."

"Thanks for sharing your love of appliqué."

"I owe everything I know about appliqué to you. I appreciate the fine standards that you set for us."

"A quick 'Thanks' for a great class. I was right—even experienced appliquéers can learn something to help, if they take classes from good teachers. Loved your class and tell everyone to take it when they get a chance."

"Nancy, What an incredible day! I was convinced that I didn't like to appliqué from past experiences. As I sat and took my first hesitant stitches and continued on to stitch a straight line and then two points, I was amazed at the fun I was having and how nice the finished product was looking. I have taken several classes before at guild, but never before have I had a teacher who really spent the day teaching. My head was swimming by the end of the day. Thanks for the printed instructions. They proved very helpful today as I continued to practice inside and outside curves. I will strongly recommend your classes to everyone."

"One of the most instructional classes I have taken. No wasted time. Thanks for being so well prepared and generous with your knowledge."
